

## Construct an Axis Rotation Demonstration Tool for \$5USD

Contributed by Joe Slowinski  
Saturday, 23 June 2007

Coaches can create an inexpensive axis rotation demonstration tool to help bowlers see what axis rotation is and how the various degrees differ (e.g., 0, 15, 30, 45, 60 and 90). For less than \$5 USD, this tool will be invaluable to your coaching tool-kit.
