## The Arsenal Sequence Process:Considerations for matching up equipment to the environment

Contributed by Joe Slowinski Wednesday, 21 December 2011 Last Updated Monday, 26 December 2011

AVAILABLE NOW In the January 2012 Slowinski at-large, I discuss the arsenal sequence process. Specifically, how do you choose bowling balls (layouts & surfaces) to set-up for fresh, transition and burn? In addition, how will the environment impact ball motion as well as choosing the appropriate sequence of bowling balls?
